

TRYHACKME CTF WRITEUP

ROOM USED : PICKLE PICK

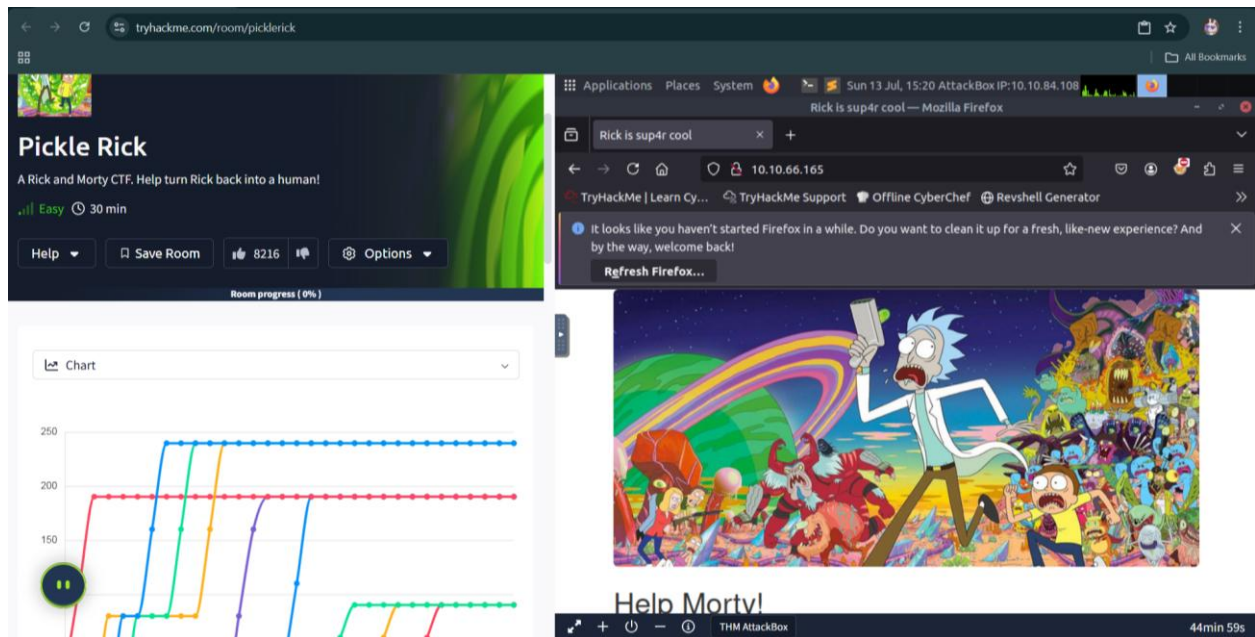

SUBMITTED BY: RITHI KRISHNA

1.Connected using attackbox

2. Scan with Nmap using the command `-nmap -sC -sV 10.10.66.165`

Open Ports Detected:

Port 22 (SSH)

22/tcp open ssh

OpenSSH 8.2p1 Ubuntu 4ubuntu0.11

Port 80 (HTTP)

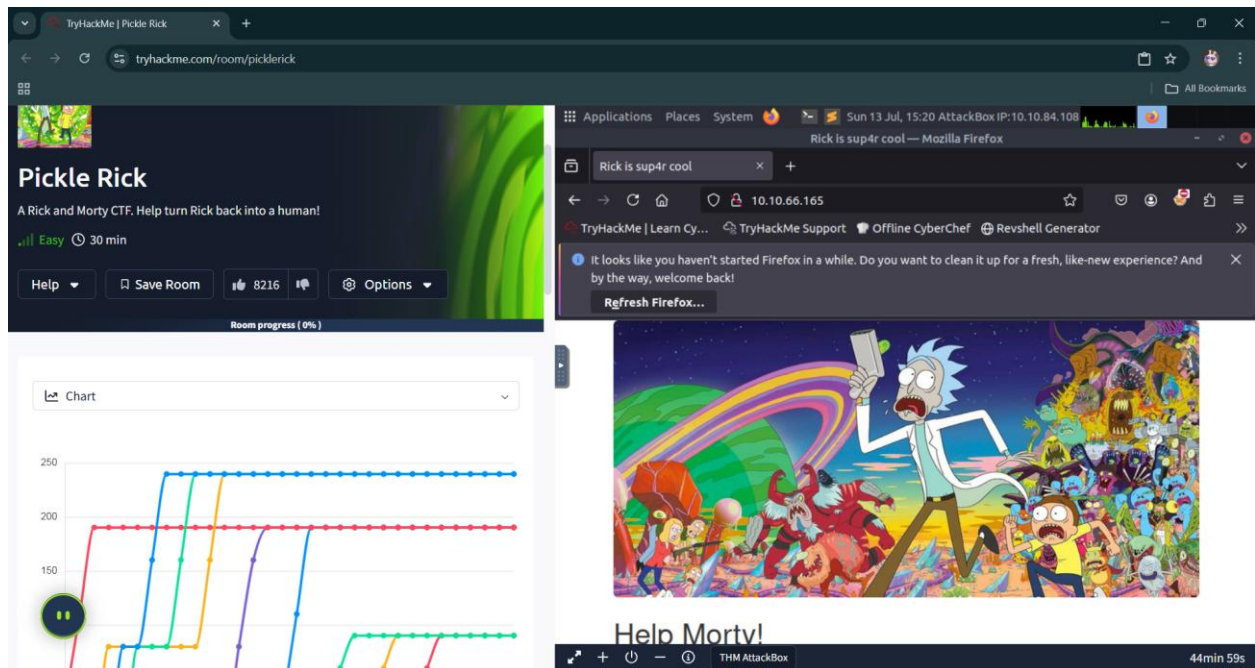

80/tcp open http

Apache httpd 2.4.41 ((Ubuntu)

http-title: Rick is sup4r cool

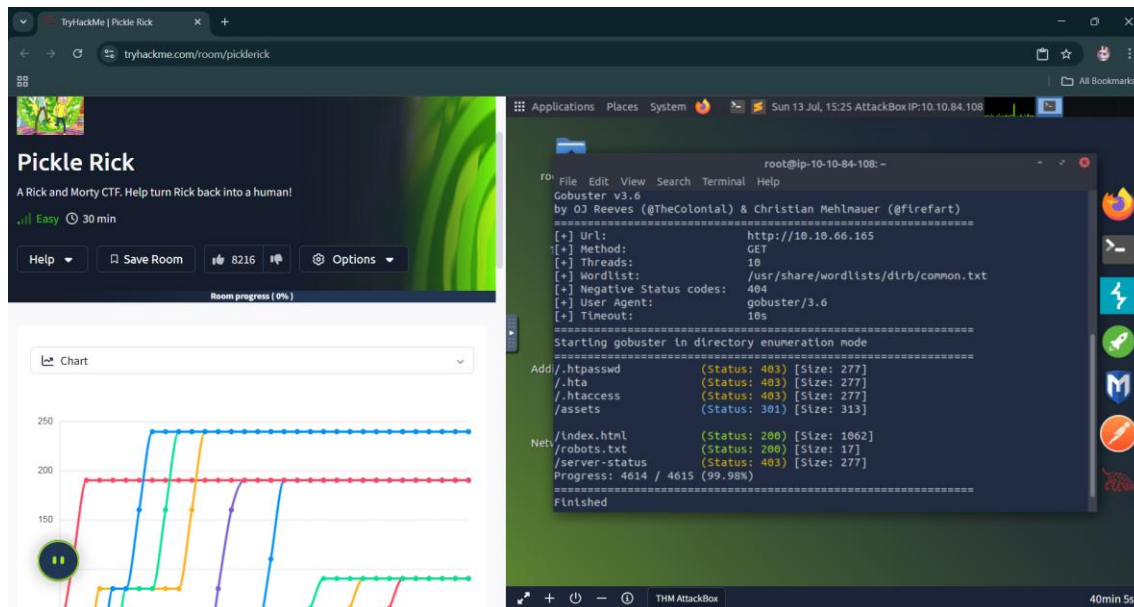

Next step is to open the website in the firefox browser.

<http://10.10.66.165>

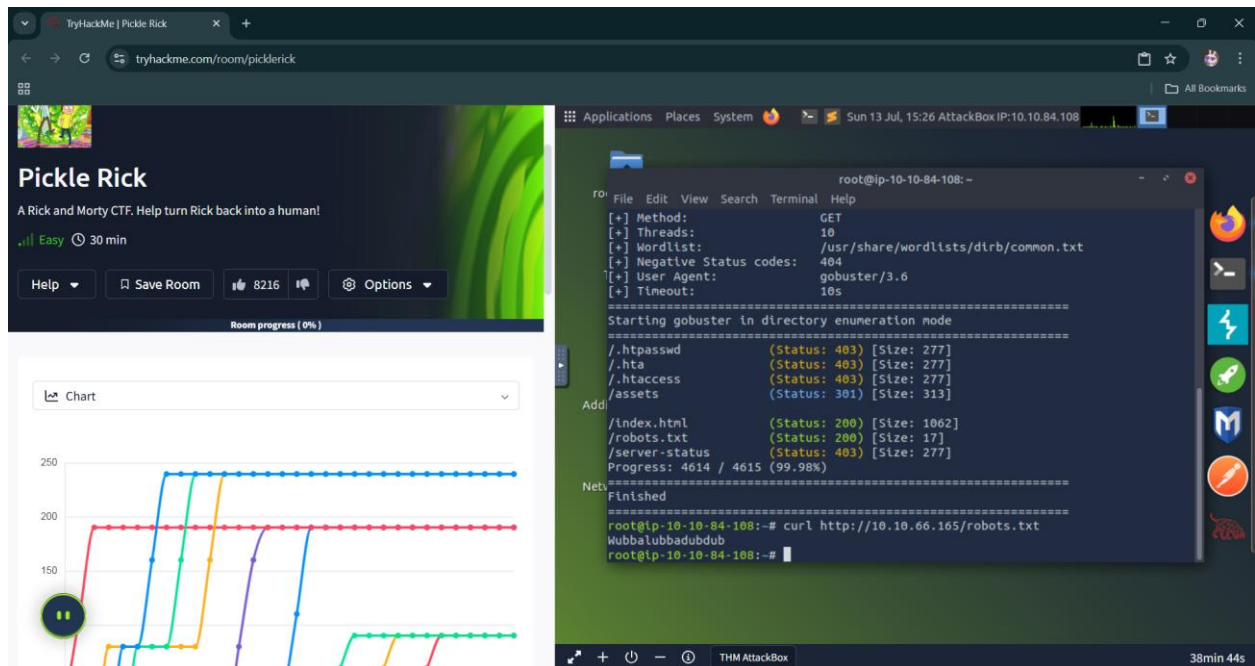

Directory Bruteforce with the Gobuster

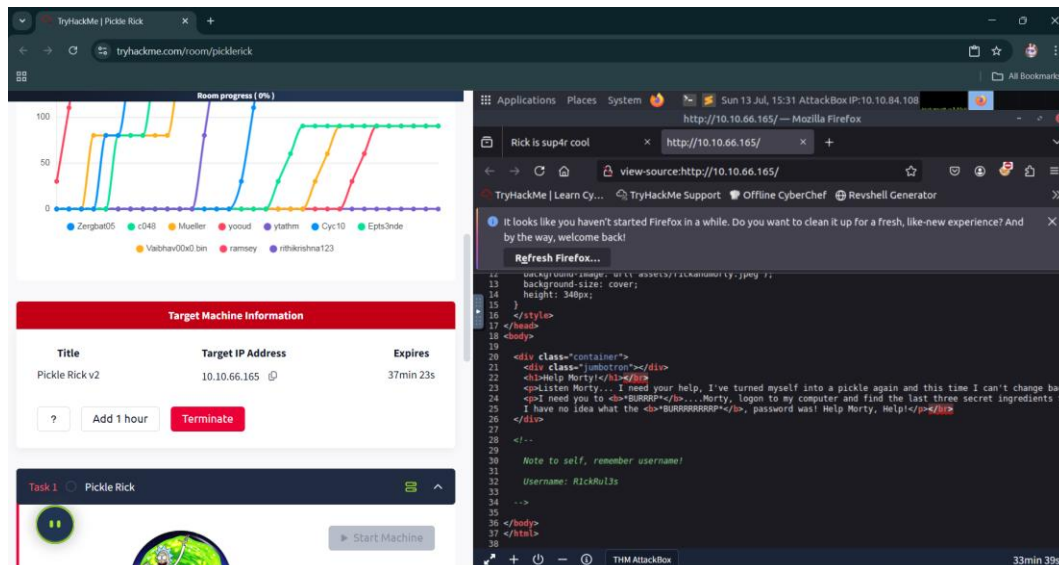

A number of accessible paths were discovered:

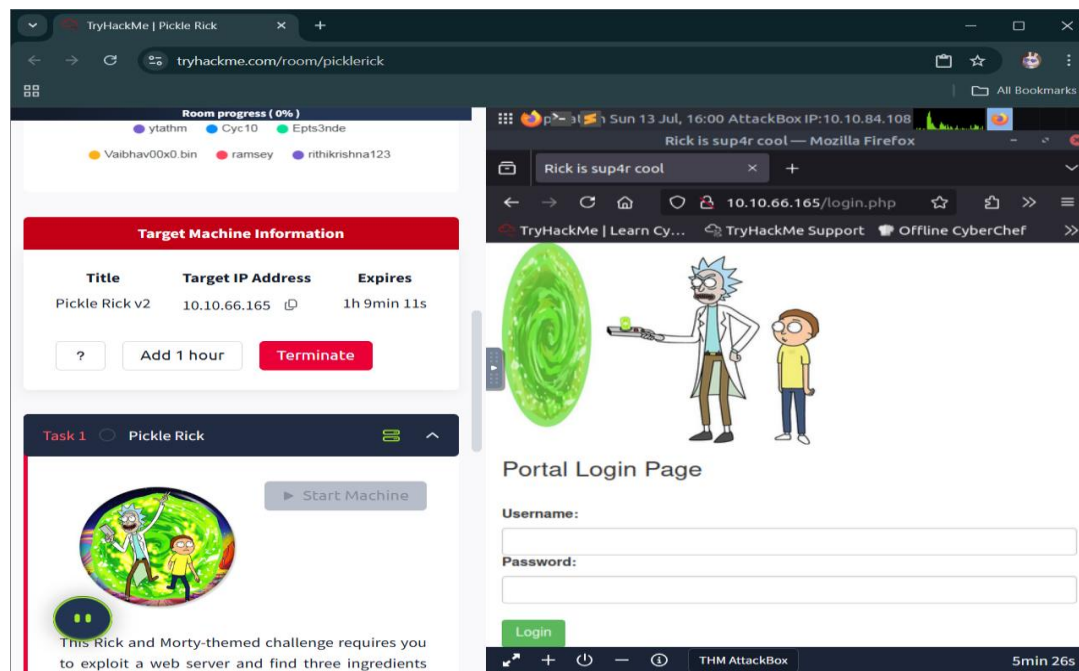

By accessing the robots.txt using the command `curl http://10.10.66.165/robots.txt`, it revealed a clue : Wubbalubbadubdub

For further clues, the page source was viewed out of which a usernames was discovered:

Further a secret login page was found by accessing “assets” path

Found the first ingredient:

mr meeseek hair

Ran the ls command to list the available files. This showed a file named Sup3rS3cretPickl3Ingred.txt. Contents: less Sup3rS3cretPickl3Ingred.txt

Command Panel

Commands

Execute

mr. meeseek hair

Find the second ingredient

Initial clue:

Command Panel

```
Look around the file system for the other ingredient.
```

ls /home

ls /home/rick

less-l /home/rick/"second ingredients"

second ingredient: 2nd Ingredient: 1 jerry tear

Command Panel

```
1 jerry tear
```

Finding the final 3rd ingredient:

sudo less /root/3rd.txt

final ingredient: fleeb juice

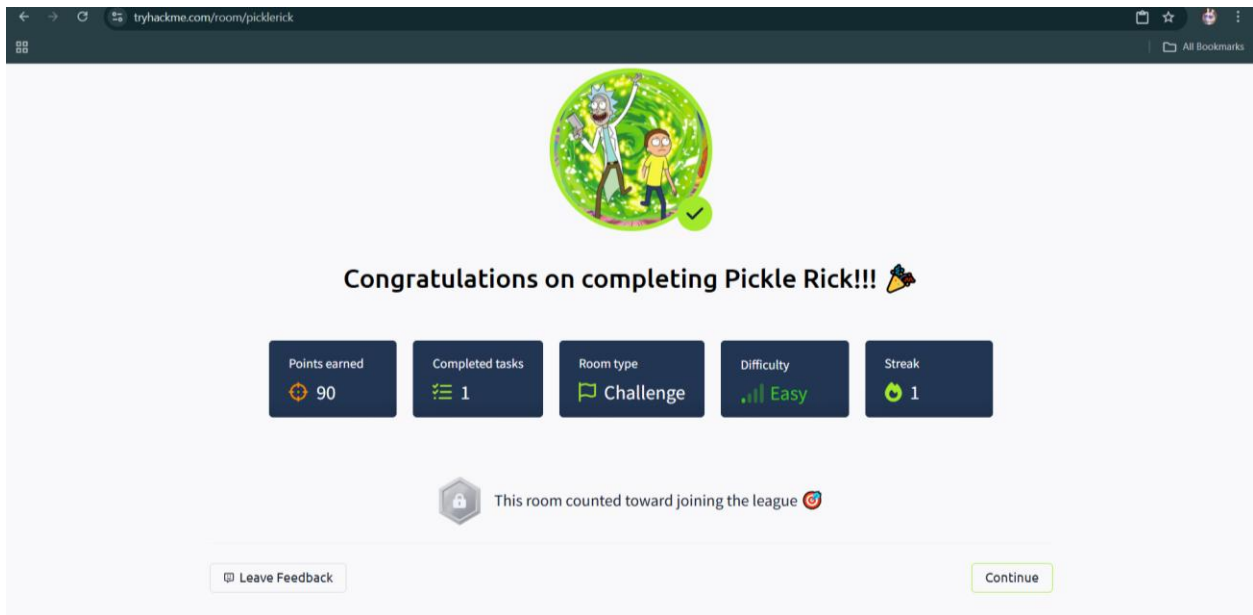

Command Panel

Commands

Execute

3rd ingredients: fleeb juice

Room completed:
